

A red van is parked on a grassy cliff edge, looking out over a vast ocean under a dramatic, cloudy sky. The van's rear hatch is open, revealing a storage compartment with a yellow handle and the word 'EGOE' printed on it. The word 'Nestbox' is overlaid in large white text across the center of the image.

# Nestbox

**EGOE**  
Ideas Make  
Products

# Introduction

Here. Stop. Breathe in... breath out. Make the bed for the night, brew up some tea. Freedom. The mind stops processing everything and the heart begins to feel. No need to deal with the hotel check-in, when breakfast is served and if we will even come across any lodging. Don't plan, "nest" wherever you want. And if you don't like the spot you're at? Just move on down the road a bit further. Heading out for adventure has never been easier.

EGOË

# Idea

Ever had the urge to just get up and head out for adventure? To embark on a journey with no particular place to go? To unchain yourself – from lodging, conditions, limits and boundaries? To experience endless possibilities and absolute freedom? To sleep under the stars while still enjoying the comforts of home? The Nestbox camper conversion kit grants you all these wishes. Just install it in the back of your vehicle and you can hit the road to wherever your heart or the GPS takes you. And when the trip is over? The camper conversion kit is just as easy to remove, store in the garage, and your vehicle can be used again for normal everyday tasks.

It is formed of a body with space for the stove and water modules, a fridge or cooler bag and for removable drawers. The body is made of steel profiles, birch plywood with HPL surface and melamine, stainless steel fasteners and Batyline® outdoor fabrics. The camper conversion kit is fitted with a lockable sliding mechanism with a lock that prevents its unwanted removal or insertion or sliding. Nestbox is secured in the trunk by means of anchoring straps and anchoring points. The car size is not a limiting factor, as Nestbox is sure to fit. The size of the vehicle is the VW Multivan or urban vehicles such as the Subaru Forester or VW Touran. We manufacture all products locally in the Czech Republic – from the initial idea, through design, to the actual production.

# Why get Nestbox

1. Quick installation
2. Driving at full occupancy
3. Minimum intervention in the vehicle
4. Compatible
5. Refined details
6. Flexible cooking
7. Easy sleeping set installation
8. Comfortable mattress
9. Material that lasts
10. Award-winning design

## Why get Nestbox

Still not convinced? Here are ten reasons why it is worth it to have your own Nestbox. We warn you though – after reading them, there will be no going back.

1. Fast installation – you install Nestbox in the vehicle or remove it in a matter of few minutes.

2. Driving at full occupancy – Nestbox when folded takes up only part of the trunk space. Thanks to Nestbox, you can take it all with you.

3. Minimum intervention in the vehicle – we pay attention to mobility and safety alike. Our camper conversion kits can be placed in almost any vehicle. Four anchor points in the trunk suffice. The anchoring straps are EU-certified, and each are tested at a 485 lb. (220 kg.) load.

4. Compatible – the universal concept allows Nestbox's installation in a large number of types of vehicles. And when you consider the rapid installation... One week you head out with Nestbox, the next week your brother-in-law borrows it (provided you both have a similar type of vehicle). The whole family will want it. Just make sure to keep some free dates for yourself.

5. Refined details – our camper conversion kits not only feature a high-quality design, but they are also practical. Nestbox offers a clever way of storing the knife inside the cutting board.

6. Flexible cooking – just slide the module out and you can cook by your car. Or you can take it out and use it to cook anywhere away from the vehicle. The burner itself can be completely removed along with a gas cartridge and taken with you on a hike.

7. Easy installation of the sleeping set – mattresses and bed bases are designed in several variations according to the type of vehicle. They are easy to deal with and fit universally into a large number of vehicles. You can unfold the mattress and bed base within a few seconds with the option of independent support.

8. Comfortable mattress – Sleep is important. No doubt about it! And we wanted you to get as much rest on the road as you do at home. The mattress filler consists of a sandwich of two polyurethane materials wrapped in fleece and covered with high-quality upholstery fabric. The bottom side is formed of easily washable, anti-slip material. During the night, you will not slide down the mattress, and during the day, you can also use the mattress outdoors, for a spontaneous picnic.

9. Materials that last – the Nestbox stands out for its steel welded frame onto which an HPL-faced birch plywood is mounted. Its material composition stands up to any weather conditions, to any road, and will stand the test of time. It will be your friend for life and a particularly reliable partner.

10. Award-winning design – Nestbox products have won the prestigious worldwide Good Design Award and Red Dot Design Award.

# Body material

## **Steel frame**

The basis of the body of all Nestbox models is the steel frame that makes the camper conversion kit solid and stable. Even after years of use, they will remain ready and reliable partners.

## **Structural steel elements**

All steel parts are galvanized to prevent corrosion and are given a heat-cured, polyester powder coating. Combining these technologies provides a synergistic effect for a far longer service life.

## **Birch plywood**

Birch plywood is mounted on the steel frame, securing its shape and making it robust and rigid. HPL-faced plywood covers the working surfaces, and the front of the camper conversion kit is given an HPL finish to increase durability. Other surfaces feature a melamine finish or brown waterproof plywood with a hexagonal pattern.

# What comes with individual sets?

Each type of the camper conversion kit features several sets to meet your preferences and needs.

## **Complete set**

This set consists of a body, water module, stove, space intended primarily for the fridge and the bed, which consists of the bed base, bed base support and comfortable anti-bacterial mattress. The price of the set includes one variant of the bed support. You can choose from the universal support or basic support. For more information about the bed support, see the chapter Accessories.

## Complete set+

Compared to the complete set, this one enables you to use an enhancement to the sleeping set. For the bed, the bed base is equipped with side rails, to which the mattress is also adapted. The full width of the vehicle is thus used for sleeping, thereby widening the space compared to the body by up to 6 in. (15 cm) on each side.

## Kitchen set

This consists of a main body, water module, stove and space for a fridge or cooler. This set does not contain a bed.

\* NOT INCLUDED IN THE PRICE

# Roamer

Nestbox **Roamer** is the right choice for you if you have a van (e.g. Ford Transit, Mercedes-Benz Metris and Sprinter) and know that #vanlife is not just an Instagram hashtag. Roamer offers so much space and comfort, you just might forget you're not at home.

## Roamer includes:

12 V pump, 2× 3 gal. (12 l) water canisters, faucet, shower, sanitary bag, folding sink

2× burners, 1× wide and 1× high storage space, curtains providing wind protection

Dometic fridge TCX 21, Dometic fridge CDF 18 (not included in the price, the type may vary for individual markets)

bed base, bed base support, mattress

Ford Transit  
Mercedes-Benz Metris  
Ram ProMaster

...

# Hiker

Does your heart beat for smaller utility vehicles (Ford Transit Connect, Ram ProMaster City, Nissan NV200)? In this case, get to know the Nestbox **Hiker**, which does not take away from its big brother in any way; it simply creates the same comfort in a smaller space.

## Hiker includes:

12 V pump, 2x 3 gal. (12 l) water canisters, faucet, shower, sanitary bag, folding sink, storage space

2x burners, 1x wide and 1x high storage space, curtains providing wind protection

Dometic fridge TCX 14 (not included in the price, the type may vary for individual markets)

bed base, bed base support, mattress

Dodge Grand Caravan  
Nissan NV200  
Ram ProMaster City  
...

# Supertramp

Supertramp is a camping kit built for those whose adventure begins beyond asphalt roads, those who are not discouraged by challenging terrain. Nestbox **Supertramp** with its width is designed for off-road vehicles such as the Mercedes-Benz G-Class, Land Rover Discovery and Jeep Wrangler.

Supertramp includes:

12 V pump, 1x 4.2 gal. (16 l) water cannister, faucet, shower, sanitary bag, folding sink, folding cutting board

2x burners, 1x storage space, curtains providing wind protection

Engel MT 17 F (not included in the price, the type may vary for individual markets)

bed base, bed base support, mattress

Jeep Wrangler  
Land Rover Discovery  
Mercedes G

...

# Camper

Handle business meetings or shopping over the week, and on Friday afternoon, succumb to the call of the wild. Nestbox **Camper** can help you do just that. "Hatchbacks, mini-vans and SUVs" – Camper can turn your vehicle into your favorite place to live on wheels.

## Camper includes:

12 V pump, 1× 4 gal, (16 l) water cannister, faucet, shower, sanitary bag, folding sink, folding cutting board. The module cannot be removed from the main drawer.

2× burners, 1× storage space, curtains providing wind protection

Egoé cooler bag custom-made for the Camper conversion kit

bed base, bed base support, mattress

Honda CR-V  
Subaru Forester  
Toyota RAV4  
...

# Tramp

**Tramp** is the smallest Nestbox model. Compared to Camper, it is characterized by a simplified structure and downsized body. Even the smallest model offers everything you need on your travels – a sleep set, stove, space for a cooler bag and removable water pressure bag. You will love Tramp for its compactness and minimalism.

## Tramp includes:

3 gal. (12 l) water bag with hose, folding sink

1× burner 1× mess kit

Egoé cooler bag custom-made for the Tramp camper conversion kit (not included)

bed base, bed base support, mattress

Honda CR-V  
Subaru Forester  
Toyota RAV4

...

# Description of individual modules and components

## Stove

The stove includes one or two burners depending on the size of the camper conversion kit, one upper drawer for kitchen utensils, or one large drawer for pots and pans. It also includes pieces of sheet metal for windproofing that are housed in a practical case.

## Water module

The water module is part of the kitchen set and is used for preparing food or basic sanitation. The module is simply placed into the body of the anchored camper conversion kit. It consists of an aluminum construction with stainless steel parts and birch plywood with resistant HPL finish. It includes a folding sink without runoff, two 3 gal. (12 l) plastic water containers, a water pump, one plastic drawer for storing things, a practic toiletry bag and 5 ft. (150 cm) shower hose with head and faucet, which as a variant are used with a plug-in quick connector. The faucet is operated by rotary switch. The content of the module may differ depending on its type.

### Water bag with pressure shower head

The bag was primarily designed as part of the Nestbox Tramp camper conversion kit but can also be used separately. The 3 gal. (12 l) bag and pressure shower head are used for basic hygiene, rinsing things or washing camping cookware. You need no electricity to operate it and you do not have to hang the shower head! Thanks to the pump, the water is under pressure even when placed on the ground or inserted in the camper conversion kit.

### Cooler bag

This expands the range of accessories to include a comfort feature that keeps your food cold. The bag's size efficiently uses the specifically defined space in the Nestboxes Camper and Tramp. The necessary climate for the bag is provided by thermal insulation materials and interior pockets intended for cooler inserts or gel packs. You can store your shopping list in the clear pocket and a pencil for notes in the textile loop. The volume of up to 6.5 gal. (25 l) (Camper 5 gal. / 20 l and Tramp 6.5 gal. / 25 l) provides enough space to store food for up to two days of your adventure.

### Basic bed base support

The basic bed base support consists of three wooden ribs used to lay out the bed base horizontally. They are installed after folding down the rear seats. The basic support comes with a bag used to safely store the entire set.

### Universal bed base support

This set is formed of the bed base support, often even independent of the seats. The universal support comes with a bag used to safely store the entire set.

### Nestmattress

Quality sleep is as important on the road as at home, and Nestmattress is its guarantee. It contains four parts that fold like an accordion. The entire mattress is covered with easily cleanable Mystic Aquaclean antibacterial fabric, and the underside features non-slip material. The mattress will be a great companion not only in the car, but also for picnics.

### Nestpillow

A pillow for the road just like it should be. The pillow is covered with an easily washable antibacterial fabric Mystic Aquaclean and features a large pocket to keep items handy when you go to bed or are simply kicking back and relaxing.

### Camping shovel

This is a fantastic little tool ready to help in noumerous outdoor activities, even those you have not planned. It can also be secured to your Nestbox.

### Camping hatchet

This handy hatchet becomes your indispensable camping tool. It is specially designed for use in the great outdoors. Its compact size lets you easily carry it in a backpack or on your belt. You can secure the hatchet to your Nestbox with a stainless-steel bracket.
